

Hobsons Bay
VET Cluster

VETiS Student Handbook 2021

Version Date: 4 August 2020

Hobsons Bay VETiS Cluster arrangement is founded on a spirit of co-operation between schools and with the purpose of providing a wider breadth of learning opportunities for students.

Participating Member Schools:

- Altona College
- Bayside P-12 College
- Emmanuel College
- Laverton P-12 College
- Point Cook Senior Secondary College
- Williamstown High School

For more information please contact:

Email: karen@wynbayllen.org.au

Privacy notice

When a student applies for a VET course, the student's school (Home School) will assist the relevant external provider (which includes a Delivery School and/or Registered Training Organisation (RTO)) with collecting student information for the purposes of assessing the application and placement of the students in VET in Schools course. The Home School's career advisor or VET coordinator will also work together with students to upload their application information into a secure online portal managed by the WynBay Local Learning Education Network, which is funded by the Victorian government.

When a student is accepted into a VET course, the Home School may assist the relevant external provider with collecting necessary student personal and health information needed for enrolment with the external provider, supporting students' educational, social and wellbeing needs, medical emergencies and other purposes stated in the Schools' Privacy Policy.

Once the student is accepted into the course, in order to ensure the safety and wellbeing of students and others, the school may also share necessary student information such as emergency contacts, health plans, foreseeable risks, or reasonable adjustments that it holds with the chosen VET course external provider (which includes the RTO and Delivery School) and where permitted by law.

For more information about how government schools handle student and parent information, please see:
<https://www.education.vic.gov.au/Pages/schoolsprivacypolicy.aspx>

If you have questions or wish to request access to the information, please contact your Home School's VET Coordinator.

WHAT IS VET?

Vocational Education and Training refers to senior school studies, which enable a secondary student to combine their VCE or VCAL studies with vocational training. VET is **usually** a two-year program combining general VCE / VCAL studies with accredited vocational education and training. It enables students to complete a nationally recognised vocational qualification (e.g. Certificate II in Community Services) and VCE/VCAL at the same time. It provides the opportunity to trial a career and helps students explore possible areas of interest which will lead to further study and better work choices.

VET allows students to go directly into employment or receive credit towards further TAFE study. VET matches student interest and career directions through the provision of strong pathways. Important industry specific skills and workplace skills are learnt through the VET program. Upon successful completion of the program, students are awarded a nationally accredited vocational training certificate.

A VET in Schools program is usually made up of VCE VET units that are delivered at the student's school and another school within the Hobsons Bay VET Cluster or at TAFE.

Contribution to the VCE and ATAR

VET is fully incorporated into the VCE. Key features include:

- VET programs usually have a Unit 1 - 4 structure.
- Of the 16 units that make up the VCE, a number can be VET units.
- VET programs contribute directly to the ATAR with a study score derived from scored assessment OR as 10% increment as a 5th or 6th subject. **However, in some instances there is nil contribution towards ATAR when Units are at 1 and 2 level only.**
- For more information, you can access the Victorian Curriculum and Assessment Authority (VCAA) website. www.vcaa.vic.edu.au

Please note not all courses can contribute to the credit of VCE unless units 1&2 and 3&4 in sequence are completed. Check with your VET Coordinator at the HOST School if credit towards VCE applies.

For more information, you can download the **VCE and VCAL Administrative Handbook:**

<https://www.vcaa.vic.edu.au/Documents/handbook/2019/adhb19.pdf>

Contribution to the VCAL

A VCAL student requires 10 credit points for a successful completion of a VCAL Certificate.

The formula is (1 credit point=90 hours): 90 hours of VET gains one VCAL credit. This usually represents one semester of classes. The teacher will add up all the hours for the four compulsory components of VCAL:

- Literacy and Numeracy Skills
- Work Related Skills
- Industry Specific Skills
- Personal Development Skills.

Example Total hours 900 divided by 90 = 10 credit points = equals successful completion

Structured Workplace Learning (SWL): Students undertake work with an employer that enables the student to demonstrate their acquired skills and knowledge in an industry setting. During the Structured Workplace Learning, a student will have specific tasks to undertake in order to demonstrate competence. Students will be regularly monitored and may be assessed on the job.

VET Increases Students' Learning Potential

- Broadens VCE/ VCAL options.
- Develops the student's capacity to make decisions and solve problems.
- Helps students to gain confidence and improve communication and interpersonal skills through learning in an adult environment.
- Matches student interest and career directions through the provision of strong pathways.

VET Gives National Qualifications and Skills

- Upon successful completion of the program, students are awarded a nationally accredited vocational training certificate.
- VET qualifications articulate directly into further education and training at TAFE and may allow the student credits for higher certificates.
- VET provides access to a range of different technologies related to the workplace

VET Prepares Students for The Workforce

- Expands post school opportunities.
- Provides the opportunity to trial a career. Helps students explore possible areas of interest, which promote further study and work choices.
- Allows students to develop strong links with industry and local community employers. Students may be offered part time or casual work.
- Improves employment prospects.
- Helps students gain knowledge of employer's expectations and real working conditions.
- Develops student's capacity for co-operation, teamwork and leadership skill development.
- Assists the transition from school to work.

VETIS ASSESSMENT PLANS

Courses delivered in the cluster that are relevant to VCE scored assessment are:

HLT33015 Allied Health Assistance	CUA30915 Music (Performance)
CHC32015 Community Services	CUA30915 Music (Sound Production)
22470VIC Engineering Studies	CUA31015 Screen and Media
ICT30115 Info, Digital Media and Tech	SIS30115 Sport and Recreation
SIT20416 Kitchen Operations (Hospitality)	

For details of the score assessment please see the Assessment Plan document.

GENERAL VETIS PROGRAM INFORMATION

Travel Arrangements

Some students will be required to travel independently to and from the venue of the course they have chosen. Wednesday and Thursday are the agreed VET delivery time in the Hobsons Bay VET Cluster. There will be a cluster bus provided on these days. It travels to all the schools in Hobsons Bay Cluster (bus times will be provided at the start of 2020).

Student Behaviour

Students will abide by the teacher's rules and the rules of the Delivery School whenever they are on site. This includes meeting Occupational Health and Safety Requirements in and out of the classroom. Attitude and behaviour are to be of the expected standard.

Breaches of safety or serious offences will require students to be sent out of class. This action will result in a meeting between the Home School VET Co-ordinator, a representative from the principal class, a parent and the student. A review of the student's continued participation in VET will be considered.

Dress Code

Students are required to wear their Home School uniform when attending VET programs at delivery schools within the cluster. If attending University or TAFE students must comply with University / TAFE requirements. When students are completing a practical subject, students must bring their required safety or work clothes to the class and change once

they have entered the school/venue. Students are not required to wear school uniform on SWL.

Students Absences

Students are permitted a maximum of 2 absences per semester or 4 for the year. An additional 2 approved absences will be allowed per year for school camps, excursions etc. Any more absences may result in the student not satisfactorily completing the units/modules. Students need to notify their VET Co-ordinators, trainers and/or the workplace in advance.

Student Charges for VET

Please be aware that there is a student charge for all VET programs. VET programs can be very expensive and so the cost of the program should be considered carefully before selecting a VET. Please see your VET Co-ordinator for charges for 2020. Please be aware that there is no REFUND if you do not withdraw from the VET program before the withdrawal Census date, 28 February. Please see your VET Co-ordinator for details about withdrawing.

Minimum Class Sizes and Changes to Programs

Please be aware that if numbers are insufficient to meet a minimum class size the VET program will be withdrawn. Please note the following arrangements and course outlines are subject to change. Courses delivered at different sites may include modules which vary from the sample course outline included in this booklet. Students will be notified of changes prior to course commencement.

HLT33015

CERTIFICATE III IN ALLIED HEALTH ASSISTANCE (PARTIAL COMPLETION)

Program Description

Certificate III in Allied Health Assistance provides students with the knowledge and skills that will enhance their employment prospects in the Health industry. These qualifications cover workers who provide assistance to allied health professionals and other health professionals with the care of clients.

Pathways / Career Opportunities

Upon successful completion of the Certificate III in Allied Health Assistance you will be prepared for further training to establish your career in a range of health fields. This course has pathways, and possible credit into further study in allied health, remedial massage and nursing.

Contribution to VCE

Students wishing to receive an ATAR contribution for the Units 3 and 4 sequence of VCE VET Health must undertake scored assessment for the purpose of achieving a study score. This study score can contribute directly to the ATAR, either as one of the student's best four studies (the primary four) or as a fifth or sixth study. Where a student elects not to receive a study score for VCE VET Health, increments for unscored VCE VET programs will be calculated using 10% of the lowest study score of the primary four.

Contribution to VCAL

Contribution to VCAL is determined by the number of units successfully completed. When a student has been assessed as competent in units totalling 100 nominal hours, this will contribute one VCAL unit towards satisfactory completion of VCAL. This program will satisfy learning outcomes for the Industry Specific Skills and Work Related Skills strands of VCAL at the Foundation, Intermediate or Senior levels.

CERTIFICATE CODE	HLT33015
CERTIFICATE NAME	Certificate III in Allied Health Assistance (Partial Completion)

MST20616

CERTIFICATE II IN APPLIED FASHION DESIGN & TECHNOLOGY

Program Description:

VCE VET Fashion is designed to give high school students an introductory overview of fashion design, introducing students to all facets of the design and production process, whilst simulating a work environment. It provides students with the design and development skills and knowledge to prepare them for work in the fashion industry. We offer small class sizes of up to 12 students. This is a great course to foster creative and technical skills. Over the 2 years' students will complete a nationally recognised Certificate II in Applied Fashion Design and Technology and a partial completion of Certificate III qualification.

In class you will learn and develop skills in fashion illustration, designing and interpreting sketches, working with patterns, sewing and applying quality measures. This is a practical course that allows students to develop their creativity and produce high quality garments.

Pathways / Career Opportunities:

This course will lead to higher level studies at certificate III and IV level. Credit transfers may be available into Certificate III in Applied Fashion Design and Technology and Certificate IV in Applied Fashion Design and Technology. Career paths in the textiles, clothing, and footwear sectors may include employment in the clothing manufacturing industry as garment sample hands, machinists, garment cutters and makers, finishing operators, and quality assurance officers.

AUR20716

CERTIFICATE II IN AUTOMOTIVE VOCATIONAL PREPARATION [HEAVY]

Program Description:

The Certificate II in Automotive Vocational Preparation (Heavy) trains students with knowledge and skills to gain competency in carrying out service and repair procedures. Through this qualification, students will develop the competencies required to repair and service diesel engines and associated components. After completion of this course and sufficient industry experience, students may seek trade recognition.

This certificate will provide pathways to:

- Apprenticeships/Traineeships in the Automotive Industry
- TAFE courses in the Automotive Industry
- Auto- Mechanical / Body Fitting / Electrical /Diesel

22338VIC

CERTIFICATE II IN BUILDING & CONSTRUCTION - CARPENTRY

Program Description:

This course will equip you with comprehensive skills and knowledge to enter the carpentry or building trades. The course is designed to enhance your carpentry and/or associated building trades prospects and gives you an introduction to the industry specific trade skills such as carpentry hand and power tools, setting out, levelling, subfloor, wall and roof framing. As well as requirements of occupational health and safety procedures within the industry.

Pathways / Career Opportunities:

The immediate pathway and career opportunity is into a full-time apprenticeship in carpentry. Other career paths within the construction industry include, Joinery, shop fitting, formwork carpentry, registered builder, building site maintenance, foremanship, building administration, estimation, building inspection, Tertiary pathways/degrees qualifications include building, building engineering, building surveying, architecture, civil/electrical/electronics, interior design and mechanical engineering.

NOTE: It is a requirement that students wanting the full pre-apprenticeship 22338VIC Certificate II in Building and Construction (Carpentry) must attend 4 weeks of full day classes commencing in November after completion of Year 2. To be eligible students must complete their second year of training at Bayside TTC and be competent in all the modules delivered during that year. There is an extra \$200 fee for this part of the program. Satisfactory completion of this two-year program and bridging course entitles the student to graduate with a Certificate and Statement of Attainment in the course.

Partial completion of the 22338VIC entitles students to a statement of attainment only. Students enrolling in this course must undertake a Pre-training review and Language, Literacy and Numeracy (LLN) evaluation before commencement of the program.

RII20715 (NEW FOR 2021) CERTIFICATE II IN CIVIL CONSTRUCTION

Are you looking to gain an apprenticeship in the civil construction industry post school?

The Certificate II in Civil Construction is an excellent pathway to achieving employment in the Civil and Construction Industry post school. This course will prepare you with the core skills and knowledge to work in an operational role. While undertaking this course you will learn hands-on construction techniques, entry-level skills and the knowledge you need to work in the civil construction industry. These skills will set you up for entry in the construction industry. When you complete this course you may gain credit towards your VCE or VCAL.

Skills include:

- Site activities such as manual excavation, reading plans and calculations
- Hands on activities creating the foundation work for building projects
- Understanding of the equipment, tools and materials used on site.

Program Description:

This course will equip you with skills and knowledge to prepare work sites in a range of civil construction settings. This may include preparation work on new housing or industrial estates, to working on local roads and freeways. The course is designed to enhance your civil construction trades prospects and gives you an introduction to the industry specific trade skills and also the requirements of occupational health and safety procedures within the industry.

Pathway:

Successful completion of this program prepares you with a solid foundation of practical skills required to successfully gain an apprenticeship in the civil construction industry.

Further study options:

Upon successful completion of this program you may receive credit towards the RII30815 Certificate III in Civil Construction Plant Operation and RII40715 Certificate IV in Civil Construction Supervision.

CERTIFICATE II IN COMMUNITY SERVICES (PARTIAL CERT III)

Program Description:

VCE VET Community Services program offers students the opportunity to learn about the community services sector and explore specific contexts of work. They will develop skills in communication, information provision and processing, administration support, networking and group support.

Pathways / Career Opportunities:

Certificate II in Community Services can provide pathways into work or further study in community services, in areas such as child care, aged care, home and community care, alcohol and other drugs work, disability work, social housing or mental health work. With additional training and experience, future employment opportunities may include a community health worker, counsellor, school support worker, case manager. Pathways are also available from this qualification into the Health Training Package in areas such as allied health assistance and nursing. Further study can also be undertaken in the higher education sector in areas such as social work and education.

CUA20113 – NEW FOR 2021

CERTIFICATE II IN DANCE

Program Description:

Certificate II in Dance aims to provide students with the technical and performance skills to begin the process of establishing a career in the entertainment industry. Students will learn the necessary knowledge and skills to enable them to participate in a variety of dance routines. Units 1 and 2 of the program include developing basic levels of physical condition for dance performance and basic dance techniques, sourcing information on the history and theory of dance and applying it to an area of work. Units 3 and 4 offers scored assessment and incorporates units such as sourcing and applying entertainment industry knowledge, preparing for a dance performance, refining basic dance techniques and applying basic dance techniques for performances.

Pathways / Career Opportunities:

VCE VET Dance will prepare you to audition for further (tertiary) training as a dancer, dance teacher or choreographer. This course will give you a taste of what the industry is like so you can work out if you want to pursue dance as a career. If you successfully complete this course you will receive a Certificate II in Dance CUA20113. VET Dance is available as a VCE subject OR as part of a VCAL program.

CERTIFICATE III IN DESIGN FUNDAMENTALS

Program Description:

With a focus on the fundamental skills of design, the Certificate III in Design Fundamentals aims to teach practical competencies relevant to creative design across a range of industries. With an emphasis on graphic and digital design, students will learn and apply skills to improve planning, layout, creative design and 3D modelling. Applying various digital and technical design skills, students will be prepared to interpret, respond, create and present to a range of design briefs.

Pathways / Career Opportunities:

A well developed understanding of design fundamentals can be readily applied in a wide range of contexts including:

- VCE Visual communication and Design
- Graphic Design
- Interior Design
- Architecture / Drafting
- Landscape Architecture
- Advertising
- Merchandising and Marketing

CERTIFICATE III IN EARLY CHILDHOOD EDUCATION & CARE

Program Description:

The Certificate III in Early Childhood Education & Care equips students with the skills and knowledge to enter the early childhood sector as a trained assistant. The program encompasses health, education and sociological aspects to prepare you for work in a range of environments. During the program you'll learn how to use organisational policies, procedures and individual children's profiles to plan activities and provide care to children, facilitating their leisure, play and enabling them to achieve their developmental outcomes.

Pathways / Career Opportunities:

This certificate will prepare students to work under direct supervision or autonomously depending on the setting. Occupational titles may include Child Care Assistant, Playgroup supervisor, Family day care worker, Child care worker, Mobile care assistant and Outside school hours care assistant. To extend careers in Early Childhood Education & Care it is recommended that students complete the Diploma of Early Childhood Education and Care course. Emmanuel College will assist you in gaining placement at an institution if interested.

CERTIFICATE CODE	CHC30113
CERTIFICATE NAME	Certificate III in Early Childhood Education & Care
TYPE	VES
RTO CODE	3044
RTO NAME	The Gordon
VCE CREDIT	Two units at Units 1 and 2, and a Units 3 and 4 sequence
ATAR	No scored assessment. You may receive one ATAR increment (10% of the average scaled score of the primary four VCE studies undertaken), however this will depend on your final subject selections. NB: These credits must be confirmed with the VET Coordinator at your school
SWL	Mandatory The VCAA Reference Group endorsed a minimum of 120 hours (3 weeks) of structured workplace learning (SWL) over the duration of the VCE VET program. Students from Point Cook Senior College are required to complete work placements during School Holiday periods
YEAR 1

CERTIFICATE II IN ELECTRO TECHNOLOGY STUDIES (PRE-VOCATIONAL)

Program Description:

The Certificate II in Electrotechnology (Pre-vocational) aims to provide students with the knowledge and skills to achieve units of competence that will enhance their employment prospects in the electrical industry. It also provides students with increased opportunities of gaining an electrical apprenticeship. The program also provides experiences in and knowledge of occupations at Electrotechnology trade level enabling students to make informed choices in the selection of career paths. Students will also gain their Electrical Refrigeration qualification.

Pathways / Career Opportunities:

This certificate will prepare students for entry level employment in the Electrical Industry and enhance their opportunity in gaining an electrical apprenticeship. Potential career opportunities include self-employed electrician, site/factory electrician, electrical inspector.

Students in electrical must wear safety boots and bring safety glasses to all classes.

CERTIFICATE CODE	22499VIC

CERTIFICATE II IN ENGINEERING STUDIES

Program Description:

Certificate II in Engineering Studies provides students with the skills and knowledge to undertake an apprenticeship in the engineering trades. Units 1 and 2 cover areas in basic machine processing, fabrication techniques, using power tools and using computers for engineering related work activities. Depending on the electives chosen, Units 3 and 4 offers scored assessment and incorporates units such as producing basic engineering sketches and drawings, handling engineering materials and assembling and testing electronic engineering equipment and making it operational.

Pathways / Career Opportunities:

Certificate II in Engineering Studies provides a pathway into an engineering apprenticeship or traineeship which can lead into a range of careers in the engineering and manufacturing industries, including roles in conception, design, manufacture, installation and repair of a wide range of products. As a qualified tradesperson, occupations may include boiler maker, welder, tool/die maker, hydraulics/avionics/mechanical technician, draftsman, mechanical fitter. This qualification also provides a pathway for students considering para professional careers in the engineering industry such as a Mechanical Engineer.

CERTIFICATE II IN HORTICULTURE

Program Description:

Certificate II is regarded as an entry level course. Graduates will have skills and knowledge to become a valued and productive employee within the Amenity Horticulture Industry. Graduates assist with planting and maintaining lawns, shrubs and garden beds in public or private gardens and parks. Upon successful completion of the Certificate II in Horticulture students may choose to complete an apprenticeship or traineeship in Horticulture, Parks and Gardens or Landscape Construction. The attire required for students are:

- Closed (safety) non-leather footwear - possible
- Long sleeve – high visibility shirt (preferably not yellow, and bees and bugs get attracted to it), and helmets for side-by-side driving
- Long Tradies Pants
- Disposable Coveralls will be provided
- Gardening gloves and will provide disposable nitrile gloves when handling other materials
- Hat (summer months and when outside)
- Safety Goggles (it will be provided)
- Thermals (during winter).

CERTIFICATE III IN INFORMATION, DIGITAL MEDIA & TECHNOLOGY (PARTIAL COMPLETION)

Program Description:

This course will equip the student with comprehensive skills and knowledge to enter the information and communications technology (ICT) field. The course provides the introductory skills and knowledge with an emphasis on ICT support and computer networking. The course incorporates theoretical, practical and hands-on training in areas such as PC hardware and software maintenance; server administration; client operating systems; and workplace skills. The students will be enrolled in enough units over the two years to obtain the full certificate to partial certificate. Students need to also complete a two-year traineeship to gain the full certificate. There are no extra units for students to complete – to get the full certificate, they MUST complete the two-year traineeship. These units are outlined below. Through this course, students will gain a partial certificate. To gain a full certificate students will need to undertake a 2-year traineeship in an IT field. VCAA requires only partial completion to obtain a VCE VET study score.

Pathways / Career Opportunities:

Areas of employment may include working in personal computer support or network systems administration. With additional training and experience future employment opportunities may include front end developer, hardware developer, systems analyst, website developer, helpdesk officer.

CERTIFICATE III IN MUSIC INDUSTRY (SOUND PRODUCTION)

Students wishing to complete a Certificate III in Music Performance must enrol in Year 1 Music Industry Sound Production in 2021. The Music Performance stream will be offered in Year 2 (2022). There are 4 UOC's that are the same in both streams for Year 1.

Program Description:

Certificate III in Music Industry (Sound Production) provides students with the practical skills and knowledge to record, mix and edit sound sources. Units 1 and 2 of the program include core units such as implementing copyright arrangements, performing basic sound editing and developing music industry knowledge. Students will be given the opportunity to specialise in areas such as event staging, support and recording. Units 3 and 4 offer scored assessment and include units such as recording and mixing a basic music demo, providing sound reinforcement and setting up and disassembling audio equipment.

Pathways / Career Opportunities:

Completion of the Certificate III prepares students for work in the music industry in areas such as sound track laying, digital editing and mixing, audio visual equipment operations and stage management and can be applied to workplaces such as stage productions, radio and medium to large recording studios. With additional training and experience, potential employment opportunities may include sound technician, tour crew member, studio engineer, theatre/television audio technician.

CERTIFICATE II IN PLUMBING (PRE-APPRENTICESHIP)

Program Description:

This course will prepare graduates with the skills and knowledge for entry level into an apprenticeship (Certificate III) within the plumbing industry. The learner will be introduced to basic skills and knowledge that underpin the Certificate III in Plumbing. Taught skills include maintain safe workplace, use of industry tools, equipment and materials. This certificate can lead students towards an environmentally friendly professional pathway with students taught principles of sustainability as well as methods and strategies to identify employment opportunities in the plumbing industry.

Pathways / Career Opportunities:

On successful completion of the Certificate II in Plumbing (Pre-apprenticeship) you will have attained a prerequisite pathway into a Certificate III apprenticeship or registration level. After completion at the registration level you can continue with further study and complete the Certificate IV or licensing level and progress into running your own business. This course is also an alternative pathway available to students in to a plumbing retail environment.

In regards to safety, all students MUST wear safety boots and bring safety glasses to all classes.

Commencement of program will be dependent on adequate student numbers for enrolment and funding. Programs and units of competency are subject to change prior to commencement.

SHB20116

CERTIFICATE II IN RETAIL COSMETICS (NEW FOR 2021)

Program Description:

Certificate II in Retail Cosmetics SHB20116 has been designed as a standard entry level qualification for the Beauty industry. The nationally accredited Certificate II in Retail Cosmetics gives you a strong foundation that combines your love of make-up and flair for customer experience.

This course engages in multiple parts of the beauty industry; practical components include units like: Make up design, lash and brow services, visual merchandising and many others that touch upon facials services and nail polish application. The students will be able to touch the day-to-day operations of working in a beauty salon or makeup counter, specialist makeup store (like Sephora), or Department store (like Myer or David Jones).

Likely functions within the Beauty industry for those who achieve this level of qualification include working within clearly defined contexts and under supervision. It involves communicating in the workplace, performing routine salon/store functions, demonstrating skin care products and designing and applying make-up in general and specialist situations.

Career pathway:

- Make up artist
- Beauty salon assistant
- Retail cosmetics assistant

Learning pathway

Upon successful completion of this program you may receive credit towards the SHB40115 Certificate IV in Beauty Therapy and SHB50115 Diploma of Beauty Therapy.

CUA31015

CERTIFICATE III IN SCREEN AND MEDIA

Program Description:

Units 1 and 2 students learn the key skills to produce digital works and explore a range of Adobe CC software. They use;

- Photoshop to prepare images for the web and advertising.
- Illustrator to explore digital drawing techniques, illustration and logo design.
- Animate to create animations based on a brief.
- Dreamweaver to update and maintain websites.

Units 3 and 4 offers a scored VCE assessment contributing to an ATAR, as well as a VET Certificate. It incorporates units such as 2D digital animations, writing content for a range of media, authoring interactive sequences and creating visual design components. This is where the students get to work for real and fictional clients and put all their creative thinking and software skills to use.

Pathways / Career Opportunities:

The skills learnt during this program can be used in almost any career and are sort out by employers. Whether it be making your own business cards, creating and updating your employer's website, taking photos to advertise a business or making menus for your family's restaurant. With additional training and experience, potential employment opportunities may include; graphic designer, web designer, games designer, animator, Illustrator or digital artist.

YEAR 1
