“Step out of the bay and into the Williamstown Marine Education Centre”
Our Mission

“To inspire the community to conserve our amazing marine ecosystem through education programs that engender excitement, pride and knowledge of Victoria’s marine environment.”
Utilising nine habitat displays, touch tanks, an artefact wall and 3 tonnes of saltwater we are able to deliver marine education while inspiring a passion for our unique underwater ecosystem.

You and your students may be interested in visiting and participating in one of our unique Marine Education programs.

Bayview Street,
Williamstown VIC 3016

---

**AQUATIC MULTIPLICATION (Aquatic Lifecycles)**
Students investigate the wonders of an underwater universe while exploring the alien adaptations required for new life beneath the waves.

**OUR FRAGILE SEAS (Human Impacts)**
Where have all our fish gone? We now know that our daily lives impact and unbalance our delicate oceans. Can we save our seas?

**BEAUTY BENEATH THE WILLI WAVES (Exploring Local Marine Life)**
With twice the diversity of algae than any comparable location on the planet, Williamstown and its surrounding marine ecosystem is rich, rare and waiting to be explored.

---

**Booking Information and Enquiries**
Our passionate and highly experienced Marine Biologist leads our programs all year round. Programs run for approximately 50 min and are linked explicitly to AusVELS outcomes. On request we can cater for specific curriculum needs or topics of interest. Our programs can cater for up to 75 students.
